TECHNICAL & SERVICES FACILITIES

2026

Benchmark in Modern Exhibitions

EXPOWORK was founded in August 2003, as the official technical contractor of EXPOATHENS, one of the most modern exhibition centers in Greece.

Due to its successful business model, EXPOWORK started offering exclusive technical support at ATHENS METROPOLITAN EXPO, the largest and newest exhibition and congress center in Athens.

Nowadays, it is also the official House Contractor of Thessaloniki International Exhibition & Congress Center (TIF). Its highly experienced coordination team is responsible for the management of every single exhibition organized (or co-organized) by TIF - HELEXPO S.A. or other organizers of exhibitions/events that take place in venues offered by TIF - HELEXPO S.A.

EXPOWORK's technical support to exhibitions, conferences and events includes a great number of quality services, covers all exhibition needs and secures the smooth running of every event - during its preparation/construction, operation and dismantling.

The growing needs of both organizers and participants in this area have led EXPOWORK's personnel to the implementation of a highly successful, integrated management system, which meets all the needs of their customers and offers high return on their investments and high quality services at the right time.

Advantages

- > Commitment to the exhibition & conference needs
- > Technical expertise
- > Highly specialized and experienced personnel
- > Integrated portfolio of exhibition services
- > Use of modern technical infrastructure and design software programs
- > Excellent knowledge of the exhibition venues due to its exclusive partnership with THESSALONIKI EXHIBITION CENTER and ATHENS METROPOLITAN EXPO

Services

- > Standard and upgraded types of shell scheme stands (OCTANORM system)
- > Furniture and exhibition equipment
- > Floors and carpets
- > Electrical devices and services
- > Digital printings for area branding & signage
- > Audiovisual equipment
- > Rigging services
- > Construction of customized stands
- > IT services - Internet connections
- > Lift services and logistics
- > Security services
- > Cleaning services
- > Water-supply and drainage services
- > Graphic design services
- > Promotional and advertising materials
- > Promotional groups and services
- > Photoshoots - Video Recordings - Live Streaming

EXPOWORK'S customer-oriented philosophy, focus on the exhibitors' needs, expertise and know-how make it a significant contributor to the success of your participation to any exhibition or event.

TIF
HELEXPO

Thessaloniki International Exhibition & Congress Center

In the heart of the city and its entrepreneurial activities

Thessaloniki International Exhibition and Congress Center of TIF - HELEXPO is located in the center of Thessaloniki, which is easily accessible from every part of the city.

Thanks to its fully equipped and state-of-the-art facilities, it exceeds the European standards and remains the leading Greek exhibition organizer from 1926 till now.

As it can be found in the city's historical district, right next to the Byzantine and Archaeological Museum, the International Exhibition Center of TIF - HELEXPO attracts a large number of both exhibitors and visitors interested in a great variety of entrepreneurial activities.

The Exhibition Center covers a total area of 180,000m² and consists of 17 pavilions of 62,000m². The latter fulfill the needs of any event due to their functional design and connectivity.

The Center's venues also include equipped Congress Centers, Parking Places, Sports and Entertainment Facilities, Dining Areas, Citizen-Service Centers,

Museums, Banks and Offices of Development/Aid Agencies.

Thus; Thessaloniki International Exhibition and Congress Center is well-known for its provision of high quality services. Structured around the axis of hospitality, entertainment and exhibitors'/visitors' service, it meets the requirements of all exhibitions, congresses, conferences and cultural events.

Consultancy

You are more than welcome to contact us in order to talk about your requirements!

Our highly specialized and experienced personnel are definitely going to offer unique suggestions and successful solutions within your budgets.

Designing Solutions

Our designing solutions reflect our belief that aesthetics and functionality are equally important.

Recognizing the uniqueness of every client, we offer solutions that are targeted to your own personal needs and desires.

Therefore; we guarantee your dynamic presence in the highly competitive environment of exhibitions.

Supervision of your Stand's construction [from the very beginning till the very end]

By constantly monitoring the construction of your Stand, we aim at reducing your stress.

Due to our close supervision, you no longer have to worry about the coordination of the Stand's construction process and its final delivery.

Instructions Installation / Set-up / Departure

General Plan

- > At his arrival at the International Exhibition & Congress Center of Thessaloniki, the exhibitor or his authorized representative receives his respective exhibition space from the Floor Manager of the Hall.
- > The exhibitor holds the full responsibility for his exhibits (including machinery-exhibits) and thus; he must take all the necessary safety measures regarding static and operation.
- > The maximum height of the Stands is determined by the Operation Rules of the exhibition; nevertheless, the minimum distance between the highest point of the construction and the building's false ceiling should not be less than 50 cm.
- > Exhibition area constructions must be aesthetically pleasing on both sides. In cases of constructions that are higher than 2.5 m, their back sides, which are adjacent to other exhibitor's Stands, should be painted white.
- > Fuse boxes, fire hydrants, water supply wells, electricity supply installations, air conditioning controls, etc. must not be covered and must be easily accessible in case of necessity, malfunction or new connections.
- > All decoration and other works should have been completed one day prior to the opening of the exhibition.

Not Permitted

- > Cutting wood or plasterboards as well as using power-tools and equipment, such as spray paint compressors, anywhere inside the Exhibition Center. Such operations are only permitted outdoors.
- > Concrete constructions, excavations and any kind of drilling and nailing (nails, staples, pins, etc.) on the floor, the pillars, the ceiling and also any other structural parts of the building. The drywalls' friction should be completed with the use of a special absorbent machine while painting with sprays and pistols of suitable cross-section in order to avoid leaving unwanted traces.
- > Drilling/nailing and painting of panels and aluminum frames *(for suspending purposes, you may request special hooks from the Exhibitors' Service Desk)*
- > Rigging any item from the ceiling or any other structural part of the halls, without any prior approval, requirement or order *(Rigging Services)*.
- > Covering walls and corridors.
- > Any intervention to the electrical installations without prior approval, requirement or order *(Electrical Equipment Services)*
- > Should you object or disagree to any service provided by EXPOWORK, please inform our Customer Care Department by the end of the exhibition's opening day.
- > Our equipment and services are only provided during the official duration of the exhibition.
- > Power supply to stands whose electrical installations have been completed by the exhibitors' partners and electricians of the exhibitors will only become available after the latter's submission of the necessary documents: the electrical plan and the order form stating the requested power in KW.
(Order Form - p. 23)
- > The rigging of any equipment or object from the lighting, plumbing, fire protection, ventilation and air-conditioning networks or from any other point of the Exhibition Center's ceiling, pillars and walls.

Breach of any of the above regulations leading to any damage shall entail its full restoration and compensation -determined by EXPOWORK- will be claimed.

- > After the end of the exhibition, exhibitors first have to settle any financial obligations with EXPOWORK. Secondly, they have to remove all exhibits and decoration materials used during the exhibition within the time limit specified by the Organizers (no longer than 2 days after the exhibition's closing). Should the exhibitors leave any construction materials on site, an additional removal cost will be charged.
- > Furniture provided by EXPOWORK is recollected in the last evening after the exhibition's closing.
- > As far as exhibitions organized by TIF – HELEXPO are concerned, the exhibitor must receive a validated permit to remove their exhibits after the settlement of their financial obligations at TIF - HELEXPO Accounting Office. This permit is subsequently submitted to the Pavilion's Supervisor.
- > EXPOWORK bears no responsibility in case of loss, damage, etc. of exhibits during the preparation, operation and dismantling of the exhibition. Security and guarding services are exclusively related to the Exhibition Center's building installations. Therefore; you are kindly requested to remove all small exhibits or personal belongings (e.g. laptops, computers, TV sets) in the evening of the exhibition's final day

General Information

Medical Aid

In case of an emergency,
first aid can be provided to exhibitors or visitors
at Pavilion 11, throughout the duration of the exhibitions.
T: +30 2310 291 166

Parking

Cars and vehicles are not allowed to enter
the Thessaloniki International Exhibition & Congress Center
during the exhibitions.

Standard Booths

Description

The rental of Type 2 Exhibition Stands (with equipment) from TIF - HELEXPO includes the construction of your Standard Booth in accordance with the following characteristics:

- > Aluminum, silver colored octanorm frame, with columns, horizontal girders and filling material of beige colored melamine - 2.5 m. height
- > 30 cm fascia with exhibitor's logo / company name / stand number (1.52 x 0.20 m) at the Stand's open sides (2.20 m in height), with aluminum girders and filling material of flimsy (perforated) PVC
- > Beige colored carpet
- > 2 x 5 mirrored light spots & 1 power socket 500W - 220Volt / 16 m²
- > 1 desk & 3 chairs & 1 small table (regardless of the total space of your Exhibition Stand)

Not valid for the Book Fair Exhibition

Standard Booths

Photorealistic Virtual Models

2 open-sided Stand

3 open-sided Stand

4 open-sided Stand

Standard Shell Scheme Stands

Dimensions of a Standard Shell Scheme Stand

Height: 2.50 m
Head Height below fascia: 2.20 m
Floor to underside of ceiling grid: 2.45 m

Please note that no fixings may be made directly on the wall panels. If need be, please contact the EXPOWORK Exhibitor Service Desk and a wide range of solutions will be offered to you. Moreover, all materials must be removed from the wall panels at the end of the exhibition, without causing any damage. The latter always burdens the exhibitor.

Standard Shell Scheme Stands

Clarifications

- > No third parties are permitted to make any electrical installations or constructions within the Type 2 exhibition stands. However; the exhibitor can ask for extra lighting (if need be) by completing and filing the relevant Order Form (*Order Form p. 22*)
- > An electrical switch board, plugs and lightings are necessarily positioned within the stand and cannot be removed or replaced. If you wish their being placed in a particular position, you need to send a plan of your Booth 20 days prior to the exhibition's opening.
- > Orders that concern electrical installation or/and constructions (e.g. *installation or connection of floodlights, storage areas, lighting grid systems*) cannot be executed without a relevant plan (*Electrical Equipment 2 p. 22 & 25*). The latter must be submitted at least 20 days prior to the exhibition's opening.
- > Please note that no fixings may be made directly on the wall panels or the exhibits/ furniture. If need be, please contact the EXPOWORK Exhibitor Service Desk and a wide range of solutions will be offered to you. Moreover, all materials must be removed from the wall panels at the end of the exhibition, without causing any damage. The latter always burdens the exhibitor.
- > If a different type of exhibition stand -rather than Type 2- is requested (*such as Type 1 without constructions*) in less than 10 days prior to the exhibition's opening, the exhibitor is additionally charged with the dismantling/decommissioning cost. (*Order Form p. 25*)
- > The construction materials (*necessary for storage rooms, offices, etc.*) and the exhibits/ furniture can also be placed outdoors, as long as the latter are roofed and protected from extreme weather (e.g. *heavy rain, wind*).
- > Any alteration to the carpet color is subject to our products' availability -provided that your order is completed on time- (*Order Form p. 35*)

Custom Made Stands - Special Constructions

Clarifications

- > For Custom Made Stands (Type 1), a prerequisite for the delivery of your exhibition stand's space is the submission of the Exhibitor's Solemn Declaration -verifying the safe operation of all construction works- (*Solemn Declaration p. 47*)
The construction of a two-storey Stand requires the submission of a relevant application, which must be approved by TIF - HELEXPO. The latter should have been submitted at least 30 days prior to the exhibition's opening and should be accompanied by a static study, as well as a Formal Engineering Declaration, verifying the display's safety.
- > As far as your power supply is concerned, you will need to send us your orders at least 20 days prior to the exhibition's opening, attaching a drawing indicating the exact position of all kinds of electrical equipment and/or installations.

Another prerequisite for the electrification of your Stand is the former submission of an Electrical Plan, stamped by an electrical engineer or the Association of Electricians.

The above mentioned Electrical Plan should state the requested total volume (KW) and type of electric power (1phase/3phase) and the exact position of the Distribution Board. This information should also be mentioned in the Order Form, claiming the need for power supply and the installation of the Distribution Board.

The Order Form is completed by the Exhibitors themselves and has nothing to do with the documents that need to be submitted by the electrician. (*Order Form p. 23*)

The type of the luminaires must be LED.

-
- > In case the exhibitor places his own Electrical Panel, it must be equipped with escape relay. One-phase Distribution Boards must have the following characteristics: male-ended, blue-type, heavy duty connector 3x32 (if need be, 3x16). Three-phase Distribution Boards must meet the following requirements: male-ended, red-type Legrand connector 5x32 or 5x63 (if need be, 5x16).
-
- > If such a Distribution Board is not available to your own electrician, you can place your order at EXPOWORK (*Order Form p. 23*)
 - > In case the exhibitor does not comply with the above mentioned instructions TIF - HELEXPO reserves the right to immediately seize his power supply.

Custom Made Stands - Special Constructions

Types of Distribution Boards available

- > One-phase Distribution Board with 2 breaker positions up to 2.5 KW (220V, female-ended, blue-type, heavy duty connector 3x32)
- > One-phase Distribution Board with 2 breaker positions up to 4 KW (220V, female-ended, blue-type, heavy duty connector 3x32)
- > Three-phase Distribution Board with 6 breaker positions up to 15 KW (380V, female-ended, red-type Legrand connector 5x32) -for lighting or for lighting + motors
- > Three-phase Distribution Board with 6 breaker positions up to 30 KW (380V, female-ended, red-type Legrand connector 5x63) -for lighting or for lighting + motors

Characteristics of EXPWORK's (one-phase or three-phase) Distribution Board

- > The requested power cable and the necessary escape/protection relay
- > The single phase panel includes 3 micro automated 16A fuses
- > The three-phase panel includes 6 micro automated 16A and 20A fuses
- > One 220V plug

The single phase current lighting panel will be provided for up to 4 kw (with main fuse 20A) -except for special cases like a single phase current electrical apparatus.

For over 4 kw lighting, a three-phase current electrical panel will be installed according to the requested power (3x25, 3x40, 3x63).

For special cases, when a large power is required, the exhibitor must contact the Exhibitor Service Desk as soon as possible.

A prerequisite for the electrification of your Stand during the set-up and construction period is the former submission of your Order and Electrical Plan, stamped by an electrical engineer or the Association of Electricians.

- > For outdoor spaces, the exhibitor must place the electrical panel to a waterproof location. In case of partial or complete damage to the electrical panel, the exhibitor will be additionally charged with the costs of the repair. Before his departure from the Exhibition Center, the exhibitor must inform the floor manager for the removal of the electrical panel.
- > In case the exhibitor does not comply with the above mentioned instructions or receives unauthorized electrical power and has not submitted a certified and complete electrical plan on time, EXPWORK reserves the right to immediately seize his power supply without any notice.
- > In Type 1 exhibition areas, carpeting is laid before the special construction of the exhibition area.

Extra Services

Rigging Services

The orders related to rigging services (Order Form p. 43) must be submitted at least 30 days prior to the opening of the exhibition and must be accompanied by a detailed plan and a Declaration Letter. Solely EXPOWORK and its exclusive partners hold the right to examine the submitted documents and the feasibility of your plan and subsequently, approve it or indicate relative changes. By all means, the company retains the right not to fulfill your requirements that fall under constraints regarding static or safety reasons.

Water Supply Services

The orders related to water supply and drainage connection must be submitted at least 20 days prior to the opening of the exhibition and must be accompanied by a detailed plan (Order Form p. 46). The endpoints of all the devices must have the following characteristics:

- > Water supply: 1/2", 3/4", 3/8"
- > Drainage: 1 1/4" or Ø32

Such services are available only if there is a well within the boundaries of the Pavilion. In any other case, their provision may not be possible -even if a relevant order has already been placed.

We highly recommend elevated structural floor, which creates a hidden void for the passage of drainage/water suppliers.

The cost of the connection includes all materials like piping, wiring, water consumption and required work time. The appliance connection to coffee machines, dish washers etc. is not included.

The service is not available on 1st floor and mezzanine booths.

Internet Connection

The orders for Wired or Wireless Internet services must be submitted at least 20 days prior to the opening of the exhibition. There is also a trial period available in order to test your Internet access during the last 2 days of the exhibition's construction and preparation works (Order Form p. 46).

Cargo Services

The orders for Cargo services must be submitted at least 30 days prior to the opening of the exhibition and must be accompanied by the list of machinery, including their exact dimensions and weights.

This kind of service is offered upon request and based on scheduled appointments (Order Form p. 45).

CLARIFICATIONS

- ▶ The electric panel, the sockets and all luminaires need to be placed in the structure and cannot be removed. If you wish their placement at a specific point, you are kindly requested to provide us with a draft up to 30 days prior to your entering the exhibition area.
- ▶ All electric circuits are connected to a distribution board and include a 300mA relay.
- ▶ Power supply (kw) is included in the luminaires' prices.
- ▶ Both the installation and the power connection of the exhibitor's luminaires can only be completed if the latter have a Schuko plug at their very end, are grounded and in good condition.
- ▶ The kw pricing is multiple of 0.5 kw.
- ▶ Power strips are not available.

Dimensions of each caret: 1.00mX1.00m.

CLARIFICATIONS

- ▶ TIF-HELEXPO checks all rigging plans in order to verify their implementation or make necessary amendments.
- ▶ EXPOWORK retains the right not to fulfill exhibitors' requirements due to restrictions caused by the conditions of the roof above their Stand or due to security reasons. The company follows regulations determined by TIF-HELEXPO, which is responsible for approving all requests.
- ▶ Only EXPOWORK and its certified - authorized partners are responsible for installing roof rigging points in all exhibition areas.
- ▶ All relevant services are offered after thorough study of various factors including exact location, weight and height of the rigging equipment.
- ▶ The request form concerning rigging services must be filed at EXPOWORK no later than 30 days prior to the beginning of the exhibition's preparation works.
- ▶ This request form concerning rigging services must be accompanied by the Rigging Plan, which includes all required rigging equipment and details concerning the electrification system and the exact locations, weight, height, dimensions and descriptions of the materials used.
- ▶ The customers are fully responsible for any possible damages that may be caused by their inaccurate information giving or rigging services that have been offered by themselves, their employees or contractors. EXPOWORK does not take any responsibility for roof rigging- or any other constructions made by the customers themselves.
- ▶ All former rigging services will be exclusively offered for the purposes of the exhibition reported in this request form and will be applied to the reported Stand positions and surfaces
- ▶ Maximum height for truss installation on floor using pillars is 4.50m ▶ Pillar height must be included in calculation of total charge
- ▶ **In case of hanging luminaires a necessary condition is that their type must be LED and the permissible level of electrical power 20W/sqm exhibition area.**
- ▶ In case the exhibitor does not comply with the above mentioned instructions TIF - HELEXPO reserves the right to immediately seize his power supply and dismantling rigging points.

CLARIFICATIONS

- ▶ Both the drainage and water supply services are available only if there is a well within the boundaries of the Pavilion. In any other case, the provision of these services may not be possible - even if a relevant order has already been placed.
- ▶ We highly recommend elevated structural floor, which creates a hidden void for the passage of drainage/water suppliers. We would really appreciate your informing us about the floor covering of your stand.
- ▶ The endpoints of all your devices should have the following characteristics: water supply: 1/2", 3/4", 3/8", drainage: 1 1/4" or $\varnothing 32$
- ▶ The Internet connection speed is at least 20Mbps through the HELEXPO network with static real IP. An Ethernet adapter card is required.

Till (Decommissioning Day):

Acknowledging full responsibility and being aware of the legal sanctions, I do solemnly declare that:

1. All the information mentioned above is true.
2. In case of construction of a two-storey stand, I will submit a Static Study Plan.
3. I have completed my Stand's construction by my own means and its height does not exceed 3 meters.
4. I follow strictly all current regulations and legislation. All the necessary health and safety measures have been taken, in order to avoid accidents at my staff's or other third parties' expense and to prevent any damage.
5. I personally guarantee that my Stand's construction meets all the technical, safety and static requirements. Furthermore, I declare that I carry full responsibility -both criminal and civil- for (a) any possible bodily injury, (b) any labor or other accident and (c) any damage that may be caused to third parties or this construction, respectively.
6. I undertake the responsibility to remove all construction materials from the Pavilion, after the exhibition's closing -at the predetermined time specified by the organizers- .
